Project Management

Problem Solving

Creativity

Team Management

Leadership

Hardware & Technical Support: Computer Hardware Troubleshooting - Computer Assembly & Maintenance - Laptop Hardware Repair - Mobile Device Troubleshooting - Mobile Software Installation & Configuration - Operating System Installation (Windows)

## Educations

### University of Benghazi

Benghazi, Libya  
Fall 2025 – 2026

Bachelor's degree in Information Technology

Specializing in Software Engineering with a strong focus on web development and building practical systems. Experienced in designing user-friendly interfaces, managing databases, and developing efficient solutions to real-world problems. Demonstrates solid technical knowledge, problem-solving skills, and a strong commitment to continuous learning and innovation.

## Courses

### Mobile Phone Maintenance (Software + Hardware)

26/3/2022

### Building Web Applications using C# and ASP.NET

16/10/2023

### Software Product Workshop organized by TechFlow Club

15/3/2026

## Projects

## ○ Dental Clinic Management System

- Developed a complete web-based clinic management system using PHP and MySQL.
- Implemented appointment scheduling, patient records, doctor dashboard, and role-based authentication.
- Designed relational database and responsive user interface.

## ○ Delivery on time

Developed a desktop management system for a delivery company to manage orders, customers, drivers, and financial transactions.

### Key Features:

- Order and delivery management
- Financial transaction tracking
- Reports and daily operations management

**Technologies Used:** [VB.net](#) - [Sql server](#)

## ○ Auto Parts Store Management System

- Developed a desktop ERP-like application using C#, WinForms, Entity Framework Core, and SQL Server.
- Implemented authentication, inventory management, suppliers, customers, purchase and sales invoices, dashboard analytics, and role-based permissions.
- Generated PDF invoices and reports using QuestPDF / FastReport.
